Submitted by: Jesse Lees

Q1. What experience have you had with Commonwealth disaster funding support?

6 months late inaccurate and details missed or overlooked completely

Q2. How could Commonwealth funding support communities to reduce their disaster risk?

Involve or encourage the public in the environmental knowledge of the land and work with nature supply funding many hands make lite work :)

Q3. Please describe your understanding of Commonwealth disaster funding processes.

6 months late and repeating loops of new people that know nothing.

Q4. Are the funding roles of the Commonwealth, states and territories, and local government, during disaster events clear?

No if commonwealth states they are it's so poorly done it's sloppy and not seen in public eyes they dreaming . Hit the snooze button

Q5. Is there any further information you would like to provide?

Question . Can a government or governments run a river system !? In Australia we cannot manage river systems let alone a country . The commonwealth and community's disagree with the actions takin and words are not matching government representation or political views
