

## Industry Bilateral Engagement Meetings National Public Safety Mobile Broadband (PSMB) Program

The National Emergency Management Agency (NEMA) invites all interested parties to register their interest in meeting one-on-one with the PSMB Taskforce.

These sessions will provide organisations with an opportunity to share information with the Taskforce on their current and potential service and technical offerings relevant to a national PSMB capability.

---

A national PSMB capability will be the most significant uplift in communications capability for Australian public safety agencies in decades. It is something that emergency services have needed, for a long time.

Following the delivery of the PSMB Strategic Review in October 2022, the Australian Government has invested \$10.1 million over the 2023-24 and 2024-25 financial years to take forward the recommendations of the Review and drive forward the delivery of a national PSMB capability.

**Date:** February to March 2024

**Time:** From 09:00 to 17:00 AEDT

**Location:** Virtual or In-person - Symonston, ACT

For information on how to register, refer to the PSMB Industry Engagement Framework available at <https://nema.gov.au/PSMB/industry>.

Prior to registering to participate in a Bilateral Engagement Meeting, please read the Industry Engagement Framework, Terms of Engagement and Q&As available on [NEMA's PSMB Industry Engagement webpage](#).
